BOURLAND SPEAKS.

An Eloquent, Forceful Address to a Large Crowd.

According to announcement Hon. W. E. Bourland, of Dixon, addressed the people at this place Saturday night. He spoke under the auspices of the Democratic club and was greeted by a large and enthusiastic audience. In an appropriate speech Mr. Will H. Clark introduced the speaker.

The speaker said that he was reared in a Republican cradle, reared a Republican and always voted the Republican ticket, but now the party had wandered away from the doctrines of Washington and Lincoln, and no longer stood for the constitution, the flag, and Americanism, and as a conscientious man who loved his country and her institutions, he had cut loose from Mark Hanna and the "money changers" who were now using that party for their nefarious purposes. He took up the question of imperialism, and discussed the treatment accorded the Porto Ricans; how they were brought in and then refused the privileges of the constitution, taxed without representation—a thing we would not tolerate in 1776. The plea that the tax was returned to them did not change the principle involved, and how were they benefitted, if we collected a tax from them, charged them for collecting it, and returned the balance to them?

He discussed the Philippine war, showing how the Filipinos had been accepted as allies and lead to believe that they would have their freedom when the Spanish were driven out, but we turned upon them and were trying to crush them as the British tried to crush us. Why were we doing this? Because the money changers demanded it in the interest of trade. The people must pay the enormous expense of this war, but if anything was to be gained in the way of trade, the gain would go to these self same "money changers"—the same class that the Master drove out of his temple with a scourge.

He took up the question of trusts, showing how these combinations of capital contributed their millions to the Republican campaign fund, and then were permitted to draw the money back to fold in tariff legislation and in the raising of the price on the manufactured articles the people have to buy. These trusts to deceive the people and to keep up

this game that is enabling them to amass their millions, occasionally raise the price of employes 10 per cent, and then double or triple the price of the very article these employes make, and then have every trust paper and speaker in the country to talk about "McKinley prosperity." How long, oh! how long, will the people be thus deceived? He took the Republican platforms of 1888 and 1892 and showed they demanded bimetalism, and both gold and silver as standard money of the country, and now they were for the single gold standard. "They abuse me," said the speaker, "for changing, take these platforms and tell me who has changed."

He discussed the assassination of Gov. Goebel and state issues in a telling manner. It was a strong, logical, eloquent presentation of the issues of the campaign and the speaker was frequently and enthusiastically cheered. The speech was certainly appreciated and Mr. Bourland received the hearty handshake and congratulations of scores of his hearers.

EIGHT POISONED

From Drinking Butter Milk From a Tin Bucket.

Between eleven and twelve o'clock Friday night eight persons at the home of Mr. Lem Clark, awoke from their slumbers deathly sick. A messenger was speedily dispatched for a doctor, and when Dr. Paris arrived he found he had eight patients under his care; some of them very sick, others not so bad. He began to investigate and found that all the sick had drunk butter-milk for supper, and those who consumed the most milk were most in need of medical attention. It kept the doctor pretty busy for a time as he proceeded to keep an eye on the condition of the eight people, but after a few hours suffering all recovered.

The milk had been in a tin bucket for some time; it was brought from a neighbor's house a mile and a half away in the bucket and the poisonous acid was probably generated from the time in carrying and jostling.

Union Club.

Union Democratic club will hold a meeting at the school house Saturday night, Oct. 6. All Democrats in the precinct are cordially invited to attend.

G. S. Taylor, Pres.

JOHN D. WHITE

Prohibition Candidate for Governor Speaks in Marion.

The Hon. John D. White, Prohibition candidate for governor, addressed a large audience at the court house Friday afternoon. He opened his address by discussing the great principles of the Prohibition party—the destruction of the liquor traffic. He said that the Republican platform of 1896 stated that the party upheld prohibition and would stand by its efforts. He made 100 speeches for McKinley and then saw the Republican party back out on the prohibition clause by allowing whisky to be sold to the soldiers under a wrong interpretation of the "Army Canteen Law." He said the Democrats had no prohibition clause in their platform and might have done the same but was "better to have never promised and then failed to have kept that promise." He discussed the Philippine war, opposes it and holds the administration responsible for the death of many soldiers. Said McKinley was a good man but a weak one. On state affairs he dwelt at some length. He said Taylor was a weak, unqualified man, put forth as the Republican candidate by the Federal office holders; was the nominee of the Louisville and Nashville railroad. The fight, he said, was truly between the L. and N. and William Goebel. He regarded Goebel as a man working against corporate greed. The L. and N. had tried to beat him in Democratic convention but failed. Brown, Stone and Hardin did not see anything so bad in election law until Mr. Goebel got the nomination. He does not believe an election law can be made to suit all parties before the election and advocates a repeal of the Goebel law, which is not so bad, and holding elections under old law. He said it would never be known which party honestly carried the state in 1896. He said in 1896 he went before Republican caucus in Legislature and told them that the gross frauds practiced by Republicans in Eleventh district and Louisville justified even Goebelism. The mountaineers are not as mean as they are pictured, said he. They are influenced by party leaders. In speaking of mountain intimidators that came to Frankfort he said: "Find out what made high Federal office holders talk of rivers of blood flowing in Kentucky, what made state officials talk of President McKinley sending 100,000 men to uphold Taylor, what made Roosevelt wire Taylor that he stood by him in his lawless course and then you will know what inspired the one thousand mountaineers to sweep down on Frankfort."

Mr. White strongly advocates woman suffrage and ended his address with an eloquent appeal for an educational ballot, without party devices, and for woman's equal right at the booths. Mr. White stated that he had been a Republican for years, having held office of congressman from Eleventh district several years and served in legislature; but always upheld the doctrine of prohibition. He is an eloquent, forceful speaker. His speech contained no bitterness, and he made an able defense of his party's principles. A large number of ladies were present.

THE PARIS REUNION

Attended by a Large Crowd of Friends and Neighbors.

The Paris family met in the 3rd annual reunion at the home of L. H. Paris Sept. 27, 1900. Services were introduced by singing. After reading of the 45th and 88th Psalms and prayer by Elder W. F. Paris, the programme arranged for the occasion was carried out. Music was interspersed throughout the programme.

Address of welcome was delivered by J. B. Paris. A very interesting recitation was given by Miss Ella Swansey.

Then came Dr. W. J. J. Paris, with "Medical matters of interest to the general public." In a very plain and forcible manner the Dr. exposed the medical quack. He gave many valuable pointers that, if heeded, would save hundreds of dollars for the public.

Adjournment for dinner was next in order.

To say the least of this it was a period enjoyed by all. Tables of all good eatables made irresistible appeals to the appetites of the people, and of course to this appeal there were scores of volunteers.

Rev. J. R. Clark gave an interesting address at the beginning of the afternoon session. Good and instructive talks were made by Messrs. L. H. Paris and O. W. Paris, Elders. Wm. Board, W. F. Paris, J. A. Hunt and Martha Wilson.

The organization of '90 was retained until the next reunion. A large and appreciative audience was in attendance and many were the friendly greetings exchanged.

The predominating thought appeared to be that this reunion was a mere shadow of that Great Reunion where there will be no sin, gle family, but all the redeemed of God's family.

J. B. P.

FOREIGN.

The Chinese minister to London declares America's plan for settlement will be hailed with joy in China, and that all the powers will adopt a similar policy, thereby keeping peace.

France, Russia and America hold to a common policy opposed to that of Germany, Italy and Austria, and diplomats believe peace or war over China hinges on England's turn.

Mexico's congress declared the result of the presidential election. Gen. Porfirio Diaz was unanimously reelected. Gen. Chaffee has been enabled to hold a legion guard of 1,400 men in Peking. All other troops are ordered sent at once to Manila. England's reply to Germany is identical with that of the United States, the terms named for China being rejected. Forty-five thousand native Catholics have been massacred during the Chinese uprising.

Dr. Nansen and the Duke of Abruzzi have agreed to undertake a joint expedition into north polar regions.

Count Von Waldersee alarmed Germany by cabling the kaiser that all China is aflame for war with the powers.

What is termed the final collapse of the Boer army is said to have been brought about by diplomacy and without conflict.

The administration at Washington is alarmed lest Germany's rush into war may turn all China against all the powers, but it will go on with negotiations. Events as seen at Shanghai indicate almost surely the disruption of China. Italy and Austria are said to be the only two powers which have assented to Germany's note on China. Great Britain takes the same position as the United States.

GERMANY'S PROPOSITION.

The Alignment of the Powers on the German Proposition Definitely Stated.

THE DREIBUND SHOWS A SOLID FRONT.

Great Britain, Russia and France stand with the United States, while Japan occupies a middle attitude—Nothing Known of a New Proposition.

Washington, Sept. 29.—The alignment of the powers on the German proposition to make the punishment of the Chinese ringleaders a condition precedent to negotiations may now be stated as follows: Great Britain, Russia and France stand with the United States in regarding this proposition as inexpedient. Japan occupies a middle attitude; she is willing to follow the German lead if all the other powers are agreeable, but only for the sake of preserving harmony among the powers, and not from a belief in the wisdom of the German proposition.

Dreibund Shows a Solid Front.

Austria and Italy stand shoulder to shoulder with Germany, making the dreibund a solid front. The first-named two powers do not attempt to argue the German proposition, and their answers make it apparent that they have accepted it without much consideration.

Nothing is known here officially of the alternative proposition which is reported to be preparing in Europe. If it contains the same feature as to prior punishment as the original proposition, it is not likely to receive approval here.

Will Not Change Things.

The fact that Secretary Hay is expected to return to Washington next week will not change in any way the policy of the state department. The secretary has been in the closest sympathetic touch with all that has been done respecting China, and the stories printed in Germany to the effect that he is coming back to reverse those policies is pronounced at the state department to be absurd. The officials are impressed, and have been from the beginning, with the conviction that any attempt made to punish Prince Tuan before negotiations are undertaken will absolutely defeat all efforts to obtain a peaceable and satisfactory settlement.

Cause of Prince Tuan's Promotion.

Indeed, it is believed that the attempt of Germany to apprehend such Chinese officials at this stage has been the cause of Prince Tuan's promotion, rather than anything contained in the American refusal of the German proposition. It is pointed out that an inevitable result of such an effort would be to cause the Chinese officials against whom it was directed to strike by every means in their power to secure the support of the throne, just as Tuan has in this case.

Cablegram From Conner.

Mr. Conner has been heard from in a brief cablegram. This was not published, but it is understood to indicate no important developments.

THE JAMES HOWARD CASE.

Additional Affidavits Filed in Relation to the Motion for a New Trial.

Frankfort, Ky., Sept. 29.—Additional affidavits were filed by the defense and counter affidavits by the prosecution in the motion for a new trial for James Howard, who was found guilty, Wednesday, of the murder of Wm. Goebel. All of the affidavits filed by the defense except one attack jurors who sat in the case. One is signed by the defendant, and alleges that the jury was not kept together, on one occasion, as the law requires.

John W. Roy, law clerk to Appellate Judge White, made an affidavit, which was filed by the prosecution, in which he says that on the morning of the assassination he met B. L. Guffy, a son of Judge Guffy and a prominent young republican, that the latter said to him: "Goebel will not be governor. He will be killed before the joint assembly meets." The affiant says he responded that this would create a riot, and that Taylor would certainly be killed if that should happen, to which Guffy responded: "No, they will not kill Taylor. That has been provided against."

A NEW CENSUS FEATURE.

Analysis to be Made of Census Statistics by the Division of Methods and Results.

Washington, Sept. 29.—One of the most interesting features of the census bureau, as well as a new one in such work, will be the analysis that is to be made of methods and results, of which Prof. Walter F. Wilcox, of Cornell university, is in charge. It is to be the duty of Mr. Wilcox to show what the cold figures of the census means, for, though "figures do not lie," a failure to properly interpret them often causes them to give false impressions. With a view of securing expert comment on all the statistics of the census, returns on various subjects will be sent to experts who have national reputations. Health statistics will be interpreted by men who have for years made a special study of such matters, and mortality statistics will probably be placed in the hands of insurance experts for their explanation and comment. So it will be in all lines of census work. The result of this explanation of the figures is expected to be one of the most popular of all the census bureau's accomplishments.

TELLER COUNTY DEMOCRATS.

They Adopt Resolutions in Connection with the Assault on Gov. Roosevelt.

Victor, Col., Sept. 29.—The Teller county democratic convention and club of Victor adopted the following resolutions unanimously:

Whereas, Gov. Roosevelt and party were not received in Victor with the tolerance and courtesy due to the governor of a sister state; therefore,

Resolved, That we, the democrats of Victor, in convention assembled, condemn the spirit of intolerance and discourtesy exhibited on that occasion and disavow all responsibility for the disturbance of the speakers in a public hall and for the subsequent violence indulged in by members of the republican marching club; further

Resolved, And we also deplore the folly that induced the republicans of Colorado to provoke disorder by bringing Gov. Roosevelt to this city under the auspices of the cordially detested traitor and renegade, Senator Edward O. Wolcott.

THE PROHIBITION SPECIAL.

A Stop of Four Hours at Madison, Wis., with a Rally at the State Capitol.

The meeting was concluded with an address by Oliver W. Steart.

THE RISE IN TRINITY RIVER.

It is Unprecedented and Many Farms in the Valley are Totally Ruined.

Fort Worth, Tex., Sept. 29.—The unprecedented rise in the Trinity river continues with no immediate prospects of receding. The waters have inundated the entire bottoms in the valley and many valuable farms are totally ruined. The Rock Island bridge over West Fork, near Newark, was washed away Friday night.

WAS RUN AT A HEAVY LOSS.

Rainy Weather Made the Illinois State Fair, at Springfield, a Losing Venture.

Springfield, Ill., Sept. 29.—The state board of agriculture will be compelled to borrow from \$15,000 to \$20,000 to pay the premium awards of the state fair. This deficit exists in the treasury of the board. Owing to the continued ruin of the week the attendance has been badly crippled, and this has caused a great loss in receipts.

A Historic Flag.

New York, Sept. 29.—A historic flag, which will recall the early life of Admiral Sampson, has been forwarded to him by E. W. Hill of Rochester. This flag floated on the Patuxent, of which Admiral Sampson was commander at the time when it was sunk in the Dutch Gap canal in 1862.

"TO LOOK AT THE BOOKS."

An Expression That Led a Dishonest Bookkeeper to Depart in Haste.

A prominent Louisville lawyer, who was in the city recently on business, told this curious little story one evening, while chatting with some friends in the Grunewald lobby, says the New Orleans Times-Democrat. "My pet fond for many years," he said, "has been what is called the 'extending' of books. I select some standard work, preferably a work of history, and begin to collect letters, autographs, pictures, maps, printed matter, documents and anything else obtainable connected with the subject treated. Eventually I have the original book taken apart and rebound with all my supplementary matter, and a single volume is sometimes extended to a dozen. It is a very fascinating hobby, and if I went into details I would never get to my story. What I started out to tell you was this: Five or six years ago I was on the train going to Toledo to attend to some legal matters.

When I fell in with a very agreeable elderly gentleman, who turned out to be a furniture manufacturer living in middle Ohio. Something turned the conversation to books, and the old gentleman remarked casually that he was extending a copy of Irving's 'Life of Washington.' By a remarkable coincidence I was just then engaged on exactly the same task myself, and, needless to say, we both became deeply interested. By the time we reached the manufacturer's home town he had persuaded me to stop over and take a look at his library, which, he said, contained several fine specimens of extended books. We arrived late in the afternoon, and before going to his house we dropped in at his down-town office. A very serious-looking, middle-aged Scotchman came forward to greet us, and was introduced by my friend as the manager of the furniture works. 'I'm going to keep Mr. A— with us a day or so,' said the old gentleman, pleasantly. 'I want him to take a look at my books.' The Scotchman grunted some vague reply, and in a few moments we started for the house.

"I was most hospitably entertained," continued the lawyer, "and I found the library intensely interesting, but next day I had to go to Toledo, and the whole episode eventually faded from my mind. One day last summer, however, it was unexpectedly recalled by a meeting with the old manufacturer himself, whom I bumped into in the corridor of the Planter's house in St. Louis. He recognized me at once, and the first thing he asked was whether I had finished with my copy of 'Washington.' Then he took me by the arm and drew me aside. 'I'm very glad I've met you,' he said, 'because I want to tell you of a remarkable affair in which you played unconsciously an important part. Do you remember the details of your little visit to my town? 'Fairly well,' I replied, in surprise. 'Then perhaps you recall meeting the manager at our office?' he continued. 'Certainly,' said I. 'A sour-looking Scotchman with reddish hair.' 'Exactly,' he exclaimed. 'Well, he died some time since, and has never been seen since. We thought he was sick at home for a couple of days, so he got a good start. He was short a trifle over \$20,000, but he covered up his tracks so neatly that I was at a loss to know why he ran away until I received a letter from him, posted in Mexico, and making a clean breast of the whole affair. It seems that he mistook you for an expert accountant, and gathered from some remark I made about looking at my books that I had engaged you to examine the ledgers. Accordingly he took time by the forelock. It was a pretty serious loss," he added, "but I regard the incident as providential, because the rascal was then preparing for a big coup, which he would certainly have perfected inside a month. In that case he might have wrecked me."

"It was a good joke on the Scotchman," said the lawyer, chuckling, "for I don't know any more about book-keeping and accounts than a wild Hottentot."

"Them's the Rules."

A visitor in Paris was seated at a table in one of the high-priced restaurants in the exhibition grounds thinking of various things as he read over the bill of fare and observed the prices.

"By thunder!" he exclaimed to the waiter, "haven't you any conscience at all in this place?"

"Beg pardon," replied the haughty servant.

"Haven't you any conscience—conscience—conscience? Don't you understand?" The waiter picked up the bill of fare and began looking it over.

"I don't know if we have or not. If we have, it's on the bill; if we ain't, you've got to pay extra for it. Them's the rules, sir."—London Spare Moments.

SHE WOULD GET THERE.

It Was None of the Ticket Seller's Business Where She Wanted to Go.

He was long, lean, lank and raw-boned, and he shambled up to the ticket window at the Union passenger station much after the fashion of a scared canine when he approaches his master to receive a well-earned thrashing. He got as far as the outside railing and stood there with a beautiful blush gazing at the man behind the brass bars, says the St. Joseph News.

"Come in, come in; make yourself at home," was the encouraging welcome from within. He accepted the invitation and brought up against the marble ticket counter with more confidence in his face.

"Say, that," he said, in a half whisper, "is this the place where you get tickets for the kays?"

"Yes; where do you want to go? Hurry up, we're rubbed."

"Well, sir," he replied, shifting a square-inch of plug tobacco from one cheek to the other, "hever you got any long-distance tickets inter Kentucky?"

His case was equalled by that of the old lady with a sunbonnet, who said:

"I want a ticket to Platte county."

"What place in Platte county?" inquired the ticket man.

"No place in Platte county; I want to go to Platte county, and it's none of your business where I'm going to visit. You sell me the ticket to Platte county, and I'll git there."

IN REAL LIFE.

It Sounded Almost Like a Fairy Tale, But the Conclusion Was Commonplace.

"By the way," said the man who had stopped at a farmhouse to water his horse, "15 years ago a poor boy came this way and you took him in."

"Yes," queried the farmer, somewhat surprised, relates London Answers.

"You were kind to him," went on the stranger. "You fed him, gave him words of encouragement and an old suit of clothes, but five shillings in his pocket and sent him on his way rejoicing. He told you at the time that he never would forget your kindness. Am I right?"

"I believe you are," replied the farmer.

"He said that if he prospered he would see that you never had occasion to regret your kindness to a poor, struggling lad."

"Land's sake!" exclaimed the farmer's wife, excitedly. "It sounds almost like a fairy tale, don't it?"

"Well," continued the stranger, "he told me to tell you that he is still poor."

And as he drove away the farmer went out and kicked the pump viciously, while his wife threw a rolling pin at the chickens.

Pleasantly Locating the Distress.

"Did you have any trouble with your French in Paris, Mr. Riffraff?"

"No; we didn't have any trouble at all; but the people who tried to talk with us seemed to have awful time."—Indianapolis Journal.

PRACTICALLY COMPLETE.

The Coal Mine Tie-Up Gets Tighter and the Miners Are Not Ready to Resume.

TEN PER CENT. INCREASE NO INCENTIVE.

That is Only a Portion of What They Struck For, and They Will Not Return to Work Until Their Union, Through President Mitchell, Gives the Word to Do So.

Hazleton, Pa., Oct. 1.—President Mitchell, at noon, said: "The strike is practically complete, and there will be no resumption of work without there first being a convention representing every colliery in the anthracite field. The prediction was made that no attention would be paid to the notes posted by the Reading company conceding a ten per cent. advance has proved true.

In the Panther Creek Valley. "Our reports from the Panther Creek valley indicate that this heretofore impregnable portion of the anthracite region has declared its intention of suspending operations at once. "Accompanied by the national board members I shall go to Wilkesbarre Tuesday to attend a great labor demonstration, which will be participated in by fully 25,000 men."

THEY WERE DISAPPOINTED. Expectations that Men Would Go to Work Not Realized.

Shamokin, Pa., Oct. 1.—Although superintendents of the numerous collieries in this portion of the Ninth United Mine Workers' district attempted to start up their mines, few, if any, men went to work. A few business people expected there would be a stampede of employees of the Reading Coal and Iron Co., to go underground on account of the company granting an increase of ten per cent. on the net earnings of men and boys, but they were disappointed.

Less Than Usual Showed Up. If anything, less men showed up at the Reading company's working than at other operations, owing to the strikers and their leaders having canvassed the workmen thoroughly after the posting of the company's notices informing the miners of the concession. The canvassers pointed out that nothing was said about a reasonable reduction of the cost of powder, the abolishment of the sliding scale or the granting of other important concessions.

Long before daybreak all of the Reading company's men had determined not to go to work. It is generally agreed by most, if not all of the strikers, that they will not go to work until unadvisedly by President Mitchell.

IN THE WYOMING REGION.

All the Collieries Except the One at Moenahanna Tied Up.

Wilkesbarre, Pa., Oct. 1.—The situation in the Wyoming region remains unchanged. All collieries, with exception of one at Moenahanna employing 400 men, are tied up as usual. It is apparent from the declarations of the strikers and their leaders that no action will be taken on the part of the mine owners to start their mines by an offer of a ten per cent. increase in wages until word comes from President Mitchell.

RANKS REMAIN SOLID.

No Defections Among the Strikers in the Lackawanna Region. Scranton, Pa., Oct. 1.—There was not a single defection reported from the ranks of the striking mine workers in the Lackawanna region, despite the report of a ten per cent. wage increase on the part of the mining companies.

Efforts to get another Lackawanna company washery into operation were a failure, as the firemen and engineers who were asked to work there absolutely refused to do so, and are reported to have taken the oath of obligation to the United Mine Workers.

GROWING LESS AND LESS.

Only Seven of the Reading Company Producing.

Philadelphia, Oct. 1.—According to the official report of General Superintendent R. C. Luther of the Reading Coal and Iron Co.'s mines to the board of directors, but seven of the 11 mines operated by the company are running. This indicates that, of the offer of an advance in wages of ten per cent., the company is five less mines than on Saturday five collieries that failed to start. Pottsville, Eagle Hill, Wadesville, Creek and Phoenix. This leaves one Reading colliery, the Franklin, working in the Schuylkill region. The seven working, some of them are being handled, are: Lincoln, North Fork, Brookside, Richardson, Glen Good Spring and the Otto. Of those operations are very small, are working.

IGNORED THE NOTICE.

The Ten Per Cent. Increase to be No Inducement. Shenandoah, Pa., Oct. 1.—Notice posted by the Philadelphia Reading Coal and Iron Co., offering an increase in wages of ten per cent. to all of its employees, ignored by the striking miners, and none of them went to work. It was the impression here

attempt would be made to operate the idle collieries, and this feeling was strengthened by the fact that the soldiers were not ordered to patrol the roads. The governor's troop and battery C went on a practice march at eight o'clock, but this was not significant.

No Present Call for a Convention. Hazleton, Pa., Oct. 1.—President Mitchell again reiterated this afternoon that, notwithstanding the reports to the contrary, he is not preparing to issue a call for convention, nor does he contemplate at this time the issuance of such a call.

BRYAN IN THE NORTHWEST.

Minnesota Sent Him Into Wisconsin on a Gaily Decorated Train.

Duluth, Minn., Oct. 1.—When Mr. Bryan returned to his train from West Superior, Wis., where he had spent the night, he found the train quite elaborately decorated. The Minnesota state committee had placed a picture of the democratic national candidate in the place of the headlight on the locomotive, while bunting fluttered from almost every available spot on the train. There was a motto in large letters strung along one car, inscribed "The Republic Forever; an Empire Never." The words "Bryan for President, Lind for Governor" were also prominently displayed.

The first speech of the day was delivered from the veranda of the hotel in West Superior. Mr. Bryan began his speech there a few minutes before eight o'clock, and he spoke for half an hour to a large audience. His speech dealt especially with the trust question, and he made special reference to a combination of the flour interests.

ROOSEVELT IN NEBRASKA.

He Stated a Fact and Left His Hearers to Proportion the Responsibility.

Falls City, Neb., Oct. 1.—The special train bearing Gov. Roosevelt's party reached this place at 8:20 a. m. The morning was rainy and the ground water-soaked, but the inhabitants of the place were at the station to hear Gov. Roosevelt. Many wagons and carriages brought farmers and their families in from the adjoining country. Gov. Roosevelt said:

"I noticed the other day that Mr. Bryan said that the republican party had no right to claim the benefit of the fact that pork and wheat and corn had gone up. He was speaking of hogs at the time. The republican party said, four years ago, that if its policies were adopted those articles would go up. Its policies were adopted and they have gone up. You can proportion the responsibility between the evidence and the republican party as you choose, giving the republican party its share."

IMPORTANT DISPATCHES.

Consul McWade, at Canton, and Minister Conger, at Peking, Have Been Heard From.

TAOTAI SHENG'S STATEMENT VERIFIED.

Officials Responsible for the Late Massacres to be Punished—Personnel of the Chinese Members of the Peace Commission Authoritatively Announced.

Washington, Oct. 1.—Several important dispatches were received from China. Generally they tend to confirm the events recorded Saturday. From Canton, Consul McWade reports the issue of the decree punishing Tuan and his colleagues, so that there is no longer doubt as to the accuracy of Sheng's statement on that point. Mr. Conger also has received official notification of the Chinese peace commission which was forecasted by Minister Wu's advice several days ago. Mr. Conger made no reference to the condemnatory decree, hence it is inferred that it was not issued when his dispatch was sent last Thursday. The text of these two dispatches is as follows:

Consul McWade's Dispatch. "Canton (China), Oct. 1, 1900. Secretary of State, Washington.—Decrees just issued. Emperor blames ministers for whole trouble. Orders Tuan, Kiang and other officials degraded and punished by imperial courts. Emperor holds Tuan and others entirely responsible for bloodshed. [Signed] "McWade."

Minister Conger's Dispatch.

"Peking, Sept. 27 (via Taku), Sept. 30.—Secretary of State, Washington: Have received notice to-day from Prince Ching that he, Earl Li, Jung Lu and Viceroy T'ien Kun Yi and Chang Chip Tung will act in concert in negotiations for peace. Jung Lu is in the interior. Li Hung Chang is at Tien Tsin. [Signed] "Conger."

What the Dispatch Indicates.

It is evident that the two viceroys mentioned are Liu Kun Yi, the viceroy of Nanking, and Chang Chip Tung, the viceroy of Wu-Chang, the difference in spelling being in telegraphic transmission. There has been some question as to Jung Lu being a member of the commission, but Mr. Conger's report settles all doubt. Minister Wu already has received an edict naming Jung Lu as one of the commission, but this was questioned in other Chinese quarters.

Yung Lu Not Satisfactory.

The appointment is not likely to be satisfactory to any of the powers, as Yung Lu has made himself almost as offensive as Prince Tuan. He is generally regarded as the imperial troops, and is regarded as mainly responsible for the persistent fight on the legations during the crisis. The other commissioners are highly acceptable. Earl Li and Prince Ching are already favorably known, and the two viceroys are among the most pacific, enlightened and pro-foreign men in the empire.

Minister Wu's Understanding.

It is the understanding of Minister Wu that the viceroys will not come to Peking to take part in the commission, but will be counseled by telegraph. Li Hung Chang's long stay at Tien Tsin is exciting some comment, as he is aware of the American instructions to Minister Conger to open negotiations with him at Peking.

It gives the idea that Earl Li is not fully satisfied that the refractory element is overcome at Peking, and is awaiting more positive assurance.

PENSION LAW VIOLATIONS.

A United States Judge Cites the Attention of a Grand Jury to Pension Frauds.

Chattanooga, Tenn., Oct. 1.—Judge C. D. This class of fraud is becoming so prevalent that even persons claiming to be Spanish-American war veterans are beginning to put in claims that are not without fraud."

A Silver Tooth Plate with Two False Incisors the Only Clue to a Chicago Mystery.

Chicago, Oct. 1.—A silver tooth plate, to which two false incisors of the upper jaw were wired, is the only clue to the identity of the severed human head that was found tied in a grain sack in Cedar lake, just across the Indiana state line.

Identification of the victim of the supposed murder by means of the head is absolutely impossible, so far as recognizing the features are concerned, because the head was packed in quicklime before being thrown into the lake, and the features were destroyed by the action of the chemical. The only hope of getting a clue to the mystery is that the dentistry work may be recognized by some dentist.

ONE YEAR ONE DOLLAR

Relying upon the correctness of our neighbor, the Eddyville Tale, some weeks ago we published a statement that Capt. W. J. Stone would support Mr. Beckham. Now we find in the Post a letter in which Mr. Stone says that he can not support the Democratic nominee. As Capt. Stone's position, one way or the other, is not likely to influence a single voter, comment is unnecessary, and all we have to say is, "good-by, Cap."

Notwithstanding Andrew Carnegie's opposition to the administration's imperialism, he is supporting McKinley. Mr. Carnegie knows full well how he has been enabled to amass his vast fortune of millions and how his enormous income is perpetuated by the tariff and by an administration that permits trusts and combines to arbitrarily fix prices and profits on his great steel industries. Andrew stands by his dollars and not his best impulses.

Last Friday Fredonia took a vote on the whiskey question, and the wets won by a small margin. It has been a long time since there were saloons in that town.

PROSPECTS GOOD

For an Electric Light Plant in Marion at Once.

Mr. Boyce, who owns the electric light franchise made a canvass of the business men of the town last week to ascertain the number of lights that would be used in the business houses. The business men responded with liberal subscriptions and Mr. Boyce is well pleased with the outlook. He made a liberal proposition and otherwise showed his good faith and earnestness in the undertaking. He will go before the city council at its next meeting and submit a proposition for lighting the town. We are not advised as to what that proposition will be, but understand that he will propose to light the streets for about \$600 a year. If he succeeds in making a contract with the council, he will at once begin work putting in the plant.

Constantly Drawing Interest.

Washington, D. C. Sept. 26.—Senator Morgan, of Alabama, in a speech before the Jackson Democratic Association of this city says:

"The only way to settle the financial question is to pay the public debt, and it would be very easy to do so by saving some of the wild expenditures we are now making. In the course of a few years we could save over \$100,000,000, and we should commence today in order to save the interest which the people are paying. The system created by the last congress is designed to increase the national debt, and under that legislation the debt can not and will not be paid but will be increased from year to year. The payment of the debt would not underpin the national banks, but would force them to the old Jacksonian idea of a specie basis, and we would not be dependent for a circulating medium on government bonds. When that is done the financial question will be settled, and settled right."

"God Almighty made both silver and gold for money only; they are not so useful as iron. We never travel on railroads made of those metals, nor do we have our utensils made therefrom. They are useful simply because the Creator made them for our use as money, but had He considered McKinley and the Republican party he probably would have created but one. However, I can see no inclination of the Creator to decrease either. I am in favor of silver as a circulating medium because it is the money of the poor man, and while it is circulating it draws no interest. The paper dollar is constantly drawing interest, which some one is paying."

Senator Morgan spoke of the freedom of the campaign from vituperation, and accounted for it from the fact that both candidates are men who are personally above reproach. "It is partly against party," he said, "principle against principle, and record against record, and on these issues will the people decide the contest."

Killed at the Mine.

Saturday Clint Parish, a young man who has been working in the spar mines, lost his life in a shaft just this side of the Memphis. The shaft had been abandoned and he was in it removing some timbers, when a heavy timber slipped, fell and struck him a severe blow. He fell to the bottom of the shaft, some twelve or fifteen feet. There was three feet of water in the bottom of the shaft, and when assistance reached him he was dead.

It is thought that the blow and fall killed him, though it is possible that falling into the water in an unconscious state he was drowned.

Last Thursday night Hon. Ward Headley addressed one of the largest crowds that ever gathered at Salem to hear a speech. He was handsomely introduced by Everett Butler, and the speech aroused great enthusiasm.

THIRTEEN REASONS

Why Trusts Should be Driven Out of This Country.

Here are a few reasons why the "plain people" are not inclined to meekly accept the inspired statements of the trust organs and speakers, showing what a natural, necessary and beneficent institution the trust is:

It requires 50 per cent. more wheat to buy a stove than it did in 1896.

It requires twenty bushels more corn to buy a wagon than it did in 1896.

It requires 100 per cent. more corn or wheat to buy a copper kettle than in 1896.

It requires twice as much corn to buy a coll of rope as in 1896.

It requires 40 per cent. more grain to buy a plow than in 1896.

It requires 75 per cent. more grain to buy a hoe, a rake or a shovel than in 1896.

A set of common wheels that cost \$7 in 1896 now cost \$12.

The price of cultivators and other farm

implements has gone up proportionately.

Galvanized barbed wire costs from \$4 to \$4.50 per hundred more than in 1896.

It requires 40 per cent. more corn or cotton to buy a pound of sugar than in 1896.

You have to pay 40 per cent. more for glass than in 1896.

Freight rates have climbed back to the exorbitant prices which caused a popular revolt in legislation a few years ago.

The prices of oil, coal, lumber, tools and hardware have gone up from 40 to 100 per cent.

And all these things have been done by the trusts.

A trust robs you waking or sleeping, eating or drinking, working or playing, living or dying, and the coffin trust gets you in the end.

City Lots.

If you want a town lot see R. E. BIGHAM before you buy, for he is going to cut his farm up in small or big lots to suit purchaser. This land lies adjoining the town of Marion, Ky.,

Gossip of New York's Autumn FASHIONS

A Blue Gown Is a Necessary Adjunct to Every Fashionable Wardrobe During Late Fall

Charming Blouses That Are Attracting Attention

NOTHING is attracting more attention among the fashionable folk than the season's blouses. We have had blouses and fancy bodices for many seasons, but the blouse of to-day is not the blouse of old, with a bag-like tendency. It is full to be sure, but the fullness is drawn toward the center at the waist line. In this way not to disguise the curves of the figure. The long lines are to be seen, and vertical trimmings of all sorts.

OF TEA ROSE YELLOW SILK.

The plain sleeve is passe; the piquin sleeve, with its many pretty effects, is now a thing together with the modified bishop sleeve with the algon collar.

The materials used for the evening blouses are peau de soie, satin, silks, with veilings of chiffon, lace and appliques of velvet, gold braids passementerie and ruffled trimmings.

For afternoon blouses one finds in the way of materials, pretty silks, French cashmeres, Alsatian drapes, zibelanes in all the new shades of terra cotta, mahogany, deep blues, green mauve, Nile and cerise.

One of these blouses, an elaborate silk affair, was in an army blue shade, with a delicate tone of yellow silk forming a chemisette. This is veiled with white chiffon and lace. The lower portion was of the army blue silk embroidered with gold and white silk. The piquin sleeve and the algon collar finished the blouse.

One in passe chiffon was in an old ivory shade trimmed with lacerations of black French lace, and black velvet baby ribbon to hold the lace together in front. The sleeves were trimmed with the black insertion, with a full puffing of white chiffon and wide ruffle to finish.

One of tea rose yellow silk was a lovely affair. It was made up with tucked chiffon having a bolero effect of deep cream guipure, and embroidery of shimmering pearl, and shining

silver paillettes. The bolero is fastened with rosettes and twists of pale blue chiffon. The upper part of the sleeves were of black lace with turn-back cuffs at the elbow of pearl embroidered guipure, while below came a softness of tucked yellow chiffon with a train of flowers appliqued in black lace. A waist band of black satin.

An Autumn Hint for the Mothers of Our Little Men

AND this is just a hint for the mothers of little men. It does seem a shame that all the long columns of the newspapers should be devoted to what sister or mother will wear, and not a line of what the boys are to have.

This year the boys are to fare unusually well in point of dress. The little fellows of five and six years have often wished for the day to

come when they could have clothes like papa's that the men who design boys' fashionable clothing have at last taken compassion upon them and decreed that their suits should favor more of the masculine nature than they have in the past. Frills and such like have given place to a dainty tailor finish that is sure to please the boy and make the mother's heart proud of her young son.

The craze for stars and anchors and eagles and chevrons on the little suits has at last given way before the press of youthful opinion. That does not mean that these little fancy suits have gone out, but that they have changed, and one that I saw a few days ago on the sailor pattern is of a fine quality of dark navy blue serge, made with a collar, shield, band and facing of heavy black surah silk. It was not a bit less beautiful because of the lack of feminine adornments with which the little men have so long been burdened.

Russian styles, both in suits and overcoats, are attracting considerable attention. These Russian coats are soft, snug of fit and long enough to cover the little doublet and haggis trousers. The really fashionable ones are finished with bands of fur. In these, as in all the clothes for boys, there is an absence of all that in past years has given a feminine finish, and in its place is a decidedly masculine tailor finish that is pleasing to the youthful wearers.

The Reign of the Blue Gown in the Fall Fashions

THE fashionable woman who does not boast a blue gown for late autumn is certainly an oddity. Such a gown is one of the absolute demands of fashion. Reeds, green and dull russet are fashionable and popular colors, but none of them

OF PISSE CHIFFON.

will answer for the blue, which comes first, last and all the time in the late autumn styles. It matters not whether it be a tailor-made, a calling gown, a dressy street gown, a reception gown, or even an evening gown, just so long as it is blue it will answer the purpose of keeping its wearer within the bounds of the fall parade, but blue it must be.

The inevitable blue serge has always been with us, but never did it appear in such solid phalanxes as now. Navy blue, Russian blue, periwinkle blue—any blue goes; but navy and Russian are prime favorites. Probably the desirable effect of the color, in combination with the white and gold or black and gold trimming so universally popular, accounts for the rage for blue, but whatever the cause the result is eminently satisfactory. There is no dark color so universally becoming as blue. It will clear a complexion that is only aggravated by green or brown or black. No color jars with it, and almost any blouse, hat or coat is practicable with it. It stands sun and wind and storm and dirt as bravely as any color in the gamut, and with gold galloon, gold buttons, gold embroidery or any other of the gold trimmings, and a touch of black or white, it is distinctly the most knowing of the season's offerings.

One of these tailor-mades is a severe model in navy blue cloth, has a plain, close-fitting skirt, with stitched seams and deeply stitched hem. The plain, short coat, with its stitched collar, is lined with white satin, and opens in front over a waistcoat of ivory white cloth, fastening with small gold buttons, and hidden from just below the bust to the waist line by a girdle of black satin souse which crosses from right to left in surplice fashion, making a pointed line at its upper edge. A finely tucked plastron of white satin is almost hidden by a folded stock and tie of soft silk in robin's egg blue, figured with white and black.

SPOONS FROM EVERY HOTEL.

A Housekeeper's Fad That Astonished a Party of Roaming Bicyclists of Chicago.

In the northwestern part of Chicago is a little farm, removed from the main road over which the trolley cars rumble, and almost hidden by wide clover fields, says the Tribune of that city. It is not a regular stopping place for anyone going by on the main road, for no one would suspect that anything like civilization lurked among the tall weeds on that prairie.

Purely by accident some bicyclists stopped near the farmhouse, a little, tumble-down structure with a dilapidated shed attached to it, owing to a bicycle mishap to one of the party. Inquiry for a drink of water brought to earth some of the most

The German Emperor is Ordering a General Assortment of Horseless Vehicles.

The Germans were slow in adopting the automobile, but now the emperor has taken it under his protecting wing and it is expected to become the fad in Berlin. A number of persons connected with the Berlin court are trying to do business with it, and there is a good deal of enterprise and readiness to speculate among the courtiers on the Spree. More than a year ago the Kaiser's master of the horse inquired of a well-known carriage manufacturer in the capital if he could supply him with motor cars for the conveyance of visitors from the station to his majesty's country seat, at Wildpark.

This famous English pulpit orator and reformer is about to retire from the ministry. He is pastor of the City temple, the leading Congregational church of Great Britain, and has always been a prime favorite with Americans abroad. Few pulpit orators are more eloquent and fearless than he. Although he will be 71 years old next April, he has never known a day's illness, and in physique is Herculean. He established the City temple in 1859 and has made it one of the great churches of the world. His degree of doctor of divinity was conferred by the University of Chicago.

peculiar artificial well water ever drank by mortal man, but the surprise came when some money was brought out. The spoons offered to the party were undoubtedly silver, and of the best. They bore the inscription of all the big hotels of the city, including the Grand Pacific, Palmer house, Tremont, Revere and a number of others.

Some one suggested that they were souvenir spoons, but just how they came to be where they were discovered by the bicycling party is a mystery.

OBJECTED TO ANY DICTATION.

Gov. Taylor of Tennessee Effectually Ended the Interference of Legislators.

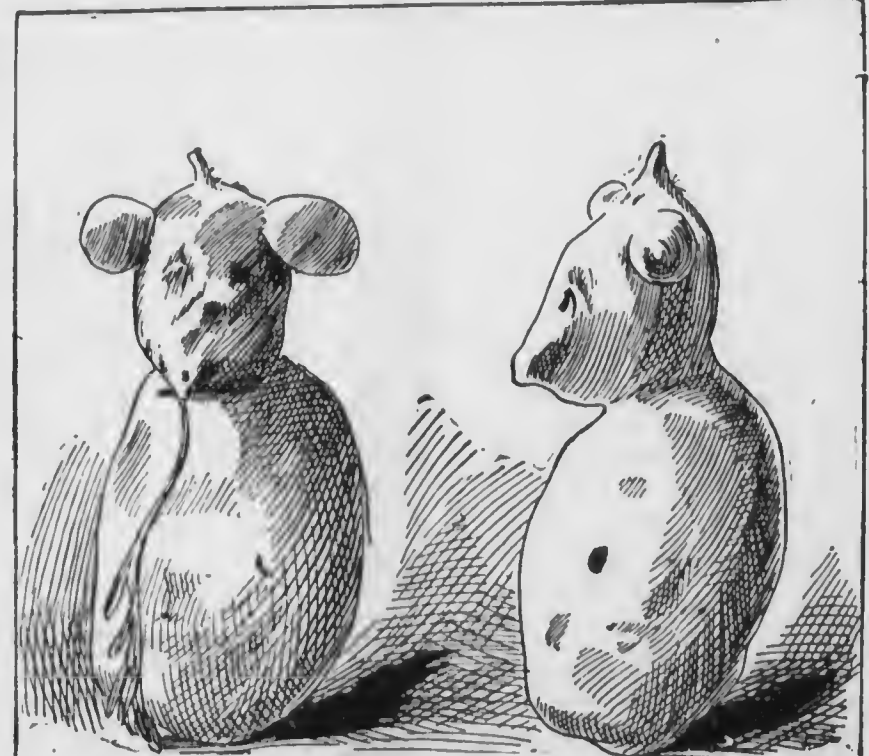

Gov. Bob Taylor, of Tennessee, was just exactly opposite to Gov. Allen, with as tender a heart as a woman, and the way he pardoned out convicts was something awful. He was

near Potsdam—the new palace. Since then the imperial post office has secured some heavy vans propelled on this principle; and now Kaiser Wilhelm himself is going to try this mode of traveling. In the month of August the Kaiser visited the military drill ground at Alten-Grabow, in the province of Saxony, and traveled the distance from Wustervitz to Ziesar and thence to Nedlitz in a motor car. The carriage-maker above referred to has offered his majesty a present of three of such vehicles, which he has graciously accepted. The roads in the neighborhood were specially put in order for the convenience of the imperial party.

The accompanying cuts do not represent Egyptian images or Chinese gods, as would apparently seem the case, but a droll-looking potato which nature seems to have produced by mistake. The owner of this most remarkable freak of the vegetable world is Mr. Eugene Beau, a butcher doing business at 50 Craig street, Montreal, Canada. Mr. Beau accidentally discovered the potato among a quantity of vegetables which he had bought from a farmer, who was probably ignorant of the surprising produce his little farm was capable of raising. The cut is taken from the Montreal Witness.

The clerk bowed and withdrew. Then the governor looked at the committee, who were staring as if they thought he was going mad. "Gentlemen," he said, finally, "I am governor of Tennessee, and if this committee or any other ever again seeks to interfere with my constitutional right to pardon I'll sign every one of those pardons which the clerk is making out. In order to minimize the destructive effects of possible explosions in the government's new powder manufactory at Indian Head all the buildings are provided with "paper" walls at the ends. WOMAN'S KIDNEY TROUBLES

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing this Fatal Woman's Disease.

Of all the diseases known with which the female organism is afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women.

The following letters will show how marvelously successful it is:

Aug. 6, 1899. "DEAR MRS. PINKHAM:—I am falling very fast, since January have lost thirty-five or forty pounds. I have a yellow, muddy complexion, feel tired, and have bearing down pains. Menses have not appeared for three months; sometimes I am troubled with a white discharge, and I also have kidney and bladder trouble. I have been this way for a long time, and feel so miserable I thought I would write to you, and see if you could do me any good."—Miss EDNA FREDERICK, Troy, Ohio.

Sept. 10, 1899. "DEAR MRS. PINKHAM:—I have used Lydia E. Pinkham's Vegetable Compound according to directions, and can say I have not felt so well for years as I do at present. Before taking your medicine a more miserable person you never saw. I could not eat or sleep, and did not care to talk with any one. I did not enjoy life at all. Now, I feel so well I cannot be grateful enough for what you have done for me. You are surely a woman's friend. Thanking you a thousand times, I remain, Ever yours, Miss EDNA FREDERICK, Troy, Ohio.

"DEAR MRS. PINKHAM:—I have taken five bottles of Lydia E. Pinkham's Vegetable Compound and cannot praise it enough. I had headaches, lencorrhoea, falling of the womb, and kidney trouble. I also had a pain when standing or walking, and sometimes there seemed to be balls of fire in front of me, so that I could not see for about twenty minutes. Felt as tired in the morning when I got up as if I had had no sleep for two weeks. Had fainting spells, was down-hearted, and would cry."—Mrs. BERNIE ORR, Second and Clayton Sts., Chester Pa.

"DEAR MRS. PINKHAM:—I cannot find language to express the terrible suffering I have had to endure. I had female trouble, also liver, stomach, kidney, and bladder trouble. I tried several doctors, also quite a number of patent medicines, and had despaired of ever getting well. At last I concluded to try Lydia E. Pinkham's Vegetable Compound, and now, thanks to your medicine, I am a well woman. I can not praise your medicine too highly for I know it will do all, and even more, than it is recommended to do. I tell every suffering woman about your Vegetable Compound, and urge them to try it and see for themselves what it will do."—Mrs. MARY A. HIPLE, No. Manchester, Ind.

The Shortest Route to Texas

One reason why travelers to Texas go via the Cotton Belt is, that the Cotton Belt is from 25 to 100 miles shorter than other routes. This saving in distance makes a corresponding saving in time.

These trains carry Pullman Sleepers at night, Parlor-Cafe Cars during the day, and Through Coaches and Free Reclining Chair Cars both day and night. This service compares favorably with that of any road in the country.

Story of the National Debt

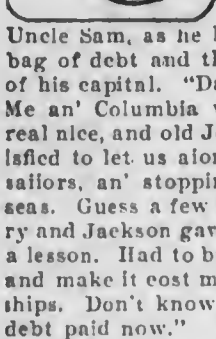

Uncle Sam Tells of the Trials and Pleasures of
Financiering a Nation for a Century

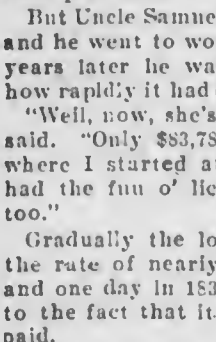

"B" GOSH, that's a pretty big load to start on a new century with," commented Uncle Sam, as he looked at the bag of debt, \$83,038,050, he had to carry. "Tain't every young feller as has to shoulder such a load as that is. Tain't many years since old John Bull himself wouldn't a liked th' looks o' that load, though I guess his is heftier'n mine is jist now. Tween Gen. Washington and Napoleon he's got about all he wants to handle, an' Napoleon's still a pillin' it up fer him. A little hard work, with Mother Columbia to keep down the household expenses, an' no more pesky wars a comin' along, an' I'll git through with it some time, I reckon."

Ten years later Uncle Sam stopped in his onward march to review the situation. "This here load o' debt's a gittin' smaller all right. Chopped most \$30,000,000 off the thing in ten years, an' still a choppin'. Feel a right smart chirper 'an I did ten years ago."

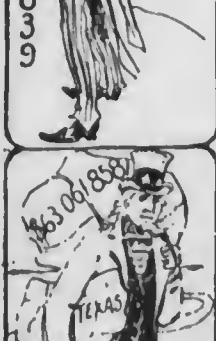

But there was trouble ahead for the struggling household, and two years later John Bull forced a war upon the country. It was not until the war was over and the English whipped that Uncle Sam had another opportunity to view the load of debt that the war had left, \$127,334,933.

"Dad blast the English!" exclaimed Uncle Sam, as he looked at the great bag of debt and the smoldering ruins of his capital. "Dad blast 'em I say. Me an' Columbia was a gittin' along real nice, and old John Bull wasn't satisfied to let us alone. Tried takin' my sailors, an' stoppin' my ships on the seas. Guess a few such lessons as Perry and Jackson gave 'em will teach 'em a lesson. Had to burn up my buildings and make it cost me a lot o' money fer ships. Don't know as I'll ever git this debt paid now."

But Uncle Samuel was willing to try, and he went to work with a will. Nine years later he was surprised to find how rapidly it had decreased. "Well, now, she's a comin' down," he said. "Only \$83,738,432 already. Jist where I started at 25 year ago, an' I had the fun o' lickin' them English, too."

Gradually the load slipped away at the rate of nearly \$10,000,000 a year, and one day in 1855 Uncle Sam awoke to the fact that it was practically all paid. "B' goosh, an' who'd a thought it," said he. "Down to \$37,733. Ain't worth carryin' on my back now, an' old John Bull's pillin' his up 'stead o' payin' it off. Beats all how Columbia can manage when she's a mind to. Never could a done it if Columbia hadn't a been such a helpful creature."

But Uncle Sam's hilarious mood did not last long. He took a glance over his shoulder four years later and was surprised to find a tidy little sum of debt fastened to his back. "Now, I do wonder how that come there?" he remarked. "Pears to me that Columbia's been a gittin' wasteful ideas. Must a been spendin' money on fol de rols an' sich. 'Tain't a very big load, an' I guess I'd better git to work and pay it off 'fore it grows any."

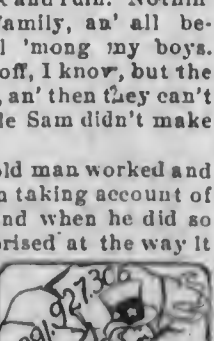

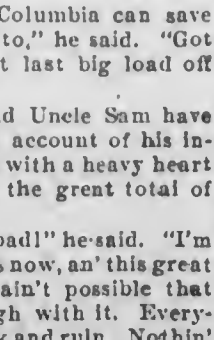

He did, and by the end of another year the \$10,434,221 of 1859 had been reduced to \$3,573,343.

"That's more like it now," said he. "Pretty hard work for a little while, but it didn't last long."

Nine years later that little load had grown to \$63,061,858, but your Uncle Samuel did not care in the least. "Ha! ha! ha!" he laughed. "Wasn't it funny the way them Mexicans did run. Guess old Gen. Scott surprised 'em a little when he walked right into their home town. Nice little load o' debt I got now, but I got Texas 'long with it, an' that more'n makes up."

ABOUT NEBRASKA.

Nebraska has no bonded debt. Eighty per cent. of Nebraska farmers own their own farms.

The last bonds outstanding were redeemed and canceled June 2, 1900.

In 1898 1,100,000 sheep were fattened for market in Nebraska.

During the past 20 years the wealth of Nebraska has increased 155 per cent.

In Nebraska originated Arbor day. In a single year Nebraskans planted 66,937,494 forest trees.

Statistics show that in Nebraska only 31 people out of 1,000 cannot read or write. This is the best showing made by any state.

In the whole United States, 722 out of every 1,000,000 inhabitants are convicts. In Nebraska alone the ratio is only 369 in every 1,000,000.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a salient called

Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure. An intelligent mother in Butler, Pa., says: "I would obtain 9 bottles if I had to pay \$5 per bottle for it."

Get Mother's Friend at the drug store. \$1 per bottle. THE CRADFIELD REGULATOR CO., Atlanta, Ga.
